Dr. Adam Frasc
Tallahassee, FL

TO WHOM IT MAY CONCERN:

I am writing this letter to the people of Tallahassee, and especially to the members of a Leon County Grand Jury that will be called in next week to decide my fate. I want all of you to know what I have been put through in the last 7-8 months ... a nightmare that no one should have to endure from our American justice system.

I ~~am being~~ ^{have been} held in the Leon County Jail under the false pretext of interfering with a child custody order concerning my two precious young children, based upon a divorce proceeding my late wife and I were trying to resolve by reconciliation. This pretext incarceration is being used by the State Attorney to keep me in jail while his henchmen try to build a case of murder against me for the death of my wife.

I cannot begin to tell honest, God-fearing persons the daily horrors of an overcrowded jail, with poor food, constant noise, frequent fights, and dozens of mentally ill and drug addled inmates always trying to pick a fight with you over the smallest of things. It is a nightmare.

When I see the grand jury next week, November 6th, I want to ask them, to ask Mr. Meggs or Ms. Cappleman, his assistant, the following questions, before they are attempted to be herded like sheep, into voting an indictment of an innocent man.

Q - What evidence do you have, after 8+ months of investigation, that places me at the pool area of my home at the time of death of my wife?

Q - What did the medical examiner find as the specific time of death of my wife ... not some 3-4 hour range as to possible time of death? I've had medical training and I know an autopsy can be very time specific.
